FIÈREMENT ST. MARY.
Les personnes de votre grand cœur se distinguent des autres qui se refusent à rendre responsables de cet avenir.
—Gérard Piche

DIRECTORS
Les administrateurs et employés de l'hôpital et le personnel du Centre de soins se distinguent par leur engagement, leur leadership et leur capacité à transformer nos réalisations collectives.
Our committed individuals and diverse teams strive to distinguish their energy and their leadership across our various organizations into real results.

BUREAU DES GOUVERNEURS
BOARD OF GOVERNORS
Les valeurs qui font du Centre hospitalier de St. Mary un établissement à part sont déjà au stade de devenir au cœur de notre action et de notre mandat de leadership.
The values they have distinguished St. Mary's throughout a century remain upheld and expanded within the mission and mandate of our leadership.

'Cynda's Report Card'

Lab Lounge

Maryse Larouche

PROUDLY ST. MARY'S.

Dear Mr. Helbert,

The fall season is a favorite time of year as we prepare for fresh starts and a myriad of exciting new possibilities. For me, it is an opportunity to reflect and share with you the many things we have accomplished together. All of us here at St. Mary's sincerely thank you for your valued support and the important role you play in the success of our Hospital and community.

Your generosity touches the lives of thousands of people. You have helped us to elevate patient care in every way - developing new pathways of treatment, improving surgery outcomes, updating facilities, conducting leading edge research and all the while, educating the healthcare professionals of the future.

As you may know, our Foundation staff like to refer to this letter as "Cynda's Report Card", initiatives of which I am proud to tell you about. We ALL know it takes a village... but in our case, a community. Your investment in patient care has helped to bring to life so much this past year.

- The antibiotic renovation to our Hospital's 2nd floor is now complete, housing two brand-new family rooms for our surgical patients and cancer care patients.
- We are now able to welcome patients and families into our newly renovated 2nd floor surgical waiting area which now provides charging stations for phones & tablets, and two big screens, one for the Open app to track patients and the other for the electronic patient guide "Your Surgery Journey at St. Mary's Hospital".
- In order to accommodate the increase in family medicine residents at St. Mary's, we happily announce an 18-month renovation of the Norman & Robert Hayes pavilion that houses our family medicine department (GMI) and other clinics is slated to finish early 2024.
- Upholding our commitment to expanding pathways of care, a new Sleep Apnea program & clinic is being established and our sleep, echo & ultrasound area in Cardiology is being reimagined.
- Recent equipment acquisitions include specialized Diagnostics chairs, defibrillators for Emergency, an arm holder for Obstetrics and a hip Arthroscopy table for Orthopaedics.
- Ongoing support of Dr. Anthony Albers Musculo-skeletal Research Project for the advancement of surgical programs and the creation of a valuable hip and knee replacement data base.
- Continued funding of vital research by Dr. Maryse Larouche, for advancing the diagnosis and treatment of debilitating pelvic floor dysfunction which affect almost one-quarter of adult women.
- Support for Dr. Julia Chabot of the Division of Geriatric Medicine for her project on how music can assist sleep in acute geriatric settings.
- 16 nursing baristas awarded in honor of our commitment to providing comforting, safe and enhanced nursing skills.
- A complete renovation of our Lab lounge, which offers respite for 30 staff members who also work to support 10 external clinics outside of our Hospital. The new space includes a spectacular wall mural installation from one of our very own SMH Lab Technicians who is often stood and celebrated for his photography in National Geographic.

Also, just yesterday September 28, the 20th pavilion of St. Mary's Girls for the Cure raised over \$304,800 in support of women related cancer treatments, education and research at St. Mary's.

As you can see, your investment in St. Mary's truly makes all the difference. We would not be able to undertake any of these initiatives without you. Your trust is what gives us the indelible confidence to keep moving forward and reaching higher.

Thank you.

With my very best wishes,

Cynda Howard
